

The screenshot displays the IMAET biofeedback software interface. On the left, a 'Potential Comprehensive Database' table lists 10 items:

ID	Item Name
1	MBB
2	Eggs/Chicken
3	Calcium Mix
4	Vit C Complex
5	Vit B Complex
6	Sugars
7	Iron Mix
8	Vit A Complex
9	Mineral Mix
10	Salts

Below this is a 'Mind Body Balance' section and a 'Description' field. The 'Basic Item Test' section shows a smaller table with 'Sugars' selected:

ID	Item Name
2	Eggs/Chicken
3	Calcium Mix
4	Vit C Complex
5	Vit B Complex
6	Sugars

A detailed list of sugar types is provided below: cane sugar, beet sugar, brown sugar, corn sugar, rice sugar, maple sugar, molasses, honey, fruit sugar, sucrose, glucose, dextrose, maltose, lactose, date sugar, grape sugar.

On the right, the 'Allergen Profile' section features a 'Add Additional Feedback' list with checkboxes for: BBF, Acid, Base, DNA, RNA, Hypothalamus, Organs, and Hormones. Below this is a 'Previous Visits' table:

Search	Clear
8/22/2022 2:02:56 PM	About Panel
8/22/2022 2:23:04 PM	ScopFeedback
8/24/2022 9:49:54 AM	To Wellness
8/27/2022 12:35:37 PM	

Additional controls include 'Save', 'Delete', 'Set Time' (3), 'Metaspacer', 'Harness', 'Quick Cycle', 'Biofeedback', '5 Sec Auto', 'Test Single Item' (0), and 'Print Results'.

Did you know that most **AUTOIMMUNE CONDITIONS** can be caused by increased **inflammation** in the body? This can be caused by an unhealthy gut microbiome, metabolic issues and/or food allergies. Let's look at one particular case where a patient with **Hashimoto's** (a disease where the immune system attacks the thyroid gland) was treated with IMAET biofeedback.

Over the course of several sessions, "Beth" was treated for sensitivity to foods such as eggs, legumes, wheat, nightshade vegetables, and tree nuts as well as metabolic dysfunctions related to Vitamin B Complex, Vitamin C, minerals, and iodine. Eventually her TSH levels decreased and she reduced her medications. Additionally, an ultrasound showed that her goiter had begun shrinking and that her nodules were drying up. Progress! As it turned out, there was nothing wrong with her thyroid gland. It was her metabolic errors and allergies that had generated enough inflammation to produce an autoimmune condition (Hashimoto's). "Beth's" journey to real health continues.

Quite often with a case of Hashimoto's, the **Epstein Barr Virus (EBV)** is part of the problem or one of the triggers. Then an immune treatment for that virus is necessary with the IMAET. Chronic EBV is difficult to detect with medical tests. However, the IMAET System is good at detecting **viruses**. The IMAET System is also capable of communicating with the **immune system** (and the genes that operate it) and focus it on a particular pathogen to be eliminated from the body. Treating chronic infections, like EBV, requires repeat treatments over several months to keep the immune system focused on this task of eliminating the virus 100%.

This kind of preventative and restorative healthcare based on energetic analysis enables us to "read the body" and communicate at the cellular level and change genetic expression. In return, that allows us to mitigate and eliminate many inflammatory conditions by harmonizing genetic expression and completely alter the course of a life for the better!

Click the button below to schedule your initial consultation and treatment today so that you too can get to the **root cause of an autoimmune condition**.
