

The Human BioEnergetic Body Field

Relays information (in the form of energy) to all your DNA, cells, tissues, organs to instruct and direct all your body's biology

"In every medical tradition before ours, healing was accomplished by moving energy"

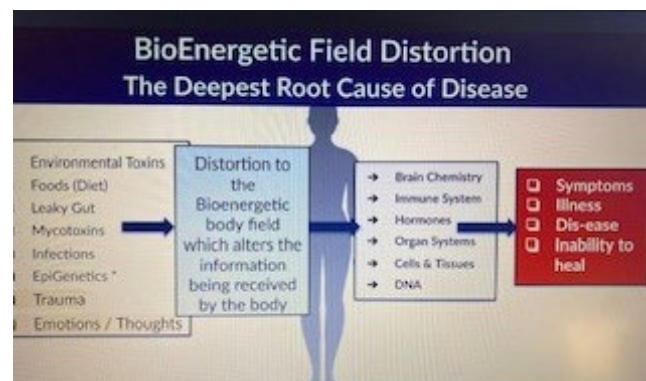

- Albert Szent-Gyorgyi, Biochemist and Nobel Prize Winner

"Future medicine will be the medicine of frequencies"

- Albert Einstein

The Human BioEnergetic Control System is our Master Information Control System. When distortion to the bioenergetic field occurs, the biological processes that sustain healing and health become dysfunctional because information is distorted.

The I.M.A.E.T. (Immune Modulation & Allergy Elimination Technology) Biofeedback helps to get to the root cause of your condition/symptoms/disease. The software is loaded with thousands upon thousands of frequencies associated with many of the above-mentioned potential root causes which then allows us to emit

frequencies (or messages) back to your body/immune system to make the system right again, toward wholeness if not wellness. Corrections are made using the energy signatures of items in the database. We have the ability to communicate with your body-mind system on the level of quantum energy.

The IMAET technology examines numerous conditions including:

- Allergies: food and environmental
- Nutritional deficiencies
- Toxic stress factors such as heavy metal and chemical agents
- Infectious stress factors such as fungus, bacteria, viruses, parasites
- Prescription drugs or other synthetic compounds.
- Chakras and Meridian imbalances (traditional Chinese medicine)
- Hormonal imbalances
